

EDUCATION

B.Tech(Information Technology) - Sri Eshwar College of Engineering	CGPA – 8.12	2023 -2027
HSC - Sri Vaiyapuri Vidyalaya Mat. Hr.School, SNKL	90.5	2022-2023
SSLC - Sri Vaiyapuri Vidyalaya Mat. Hr.School, SNKL	PASS	2020-2021

PROJECTS

Food Order Billing System (Console Application) 🔗 **Aug2024**

Developed a console-based Food Order Billing System to automate restaurant billing operations. The system manages food items, customer orders, and generates detailed bills with payment tracking.

TECH STACK: Java, Tools: IntelliJ IDEA, Eclipse, Technologies/Frameworks: Java, JavaFX, Database: MySQL

Air Guard – Car Toxic Gas Detection System 🔗 **Sep 2024**

Developed an IoT-based Air Guard system to detect harmful gases like Benzene emitted from heated car interiors and automatically activate the car's AC system as an exhaust fan, ensuring occupant safety by removing toxins even. When the vehicle is turned off.

TECH STACK:Tools: Arduino IDE /Frameworks: ESP8266, MQ-135 Gas Sensor, Database: Firebase

TrackZone – Advanced Geofencing Attendance Tracker (MERN STACK) 🔗 **Jan 2025**

Designed and developed TrackZone, an advanced attendance tracking system using Node.js and Express.js for the backend, and MongoDB as the database, integrated with GPS geofencing and fingerprint authentication APIs to ensure secure and reliable employee attendance management.

TECH STACK: Tools: Visual Studio Code, Technologies/Frameworks: MERN STACK, Database: MongoDB

RENTARO – Car Rental Management System(MERN STACK) 🔗 **Mar 2025**

Developed RENTARO, a full-stack web-based car rental management system using React.js for the frontend, Node.js with Express.js for the backend, and MongoDB as the database, providing seamless car rental services to customers and management functionalities for admins.

TECH STACK: Tools: Visual Studio Code, Technologies /Frameworks: MERN STACK, Node.js, Express.js, Database: MongoDB | API: Google Login API

EXPERIENCE – INTERNSHIP

MERN STACK (FEB 2025) - Gained hands-on experience in full-stack development, building responsive UIs and RESTful APIs using MongoDB, Express.js, React, and Node.js.

NEXTGEN DATA ENGINEERING (JUL 2025) - Completed a hands-on internship focused on Spark, PySpark Streaming, Kafka, and Airflow for scalable data pipeline design and optimization.

TECHNICAL SKILLS

Programming Languages	: C C++ Python Java
Frontend/Backend	: HTML CSS JavaScript React React Native Flutter(Basics) Node.JS Express.JS
Framework Core	: Data Structures & Algorithms Object-Oriented Programming (OOPS)
Tools	:Visual Studio Code PyCharm GitHub Figma Google Colab M.S.Word Jupyter
Database	: MongoDB, MySQL, Firebase

ACHIEVEMENTS

ProjectExpo (2024)	- Won Second Prize in college-level Project Expo among 30 projects
Astranova (2024)	- Secured third Prize in the Technical Quiz event hosted by Coimbatore Institute of Technology (CIT)
Pixel Pioneers (2025)	- Secured First Prize in National-Level Technical Debate at Nehru Institute of Engineering and Technology, and was awarded a cash prize of ₹2000
Pixel Pioneers (2025)	- Participated in a Technical Quiz on Networking and presented a project at the Ideathon event hosted by Nehru Institute of Engineering and Technology (NIET)
SIH 2024	- College Level Ranked in the Top 50 out of 200+ teams for presenting a tech-driven solution to a real-world problem during the internal college-level SIH selection round.
SkillRack	- Solved 200+ problems Profile
LeetCode	- Contest Rating: 1422 Solved 100+ problems Profile

CERTIFICATES

Mastering Data Structures and Algorithms Using C and C++ & Java	Udemy	2024
Complete CSS, JavaScript, and Python course	Udemy	2024
Certified in AR & VR and Machine Learning Workshop at CIT		2024
Excel	Udemy	2025
SQL (Basic, Intermediate)	HackerRank	2025
